

# FAQ

## I have collision trees and buildings in other G&N's mods?

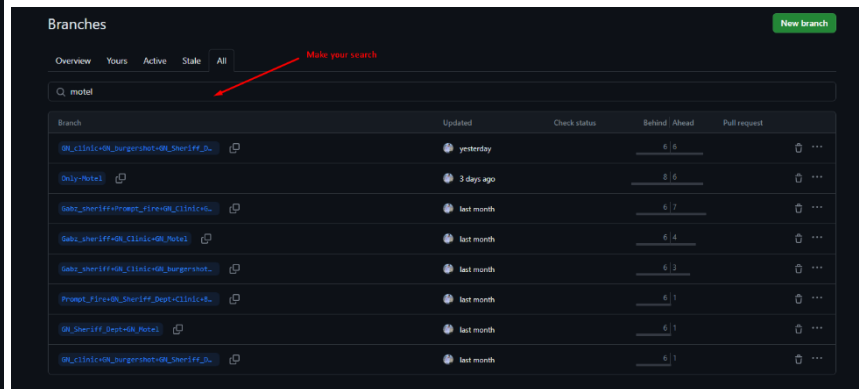

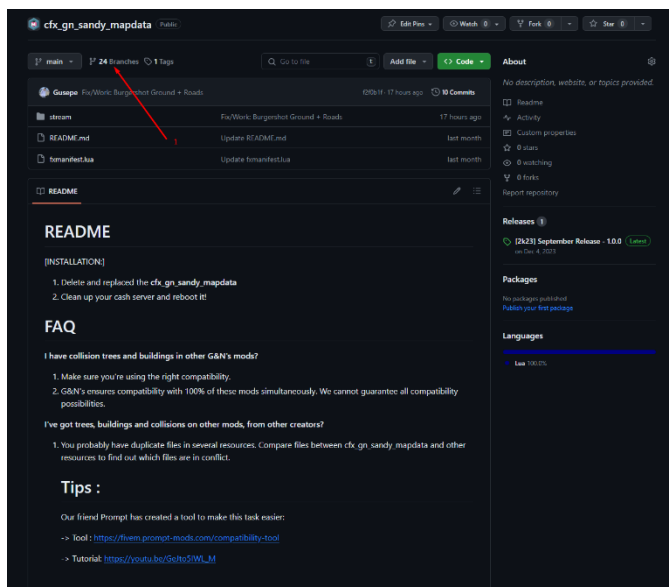

1. Make sure you're using the right compatibility.
2. G&N's ensures compatibility with 100% of these mods simultaneously.

We cannot guarantee all compatibility possibilities.

## How to find more compatibility?

Find all our compatibilities directly on our Github, search your compatibilities thanks to the different branches.

Github Link : [Click here](#)

## I've got trees, buildings and collisions on other mods, from other creators?

1. You probably have duplicate files in several resources. Compare files between `cfx_gn_sandy_mapdata` and other resources to find out which files are in conflict.

# Tips :

Our friend Prompt has created a tool to make this task easier:

-> Tool : <https://fivem.prompt-mods.com/compatibility-tool>

-> Tutorial: [https://youtu.be/GeJto5IWL\\_M](https://youtu.be/GeJto5IWL_M)
